

## Program Schedule of Public Consultations

The Consultation meeting may begin with a presentation of the summary of the Expert Committee Report. Panelists from various stakeholder groups (e.g. Fisher folk federation, Community Representatives, NGO/CBOs/, Legal experts etc.) would present their comments on the review committee report. This will be followed by discussions and views of the audience. Depending on the situation, we could also divide the participants into various working groups for detailed discussions and consolidation of comments.

The schedule for the Public Consultative Meetings for the coastal states and U.T.s are given below:
