

SHOOT & SHARE

CEE Summer 18 is going to run comprehensive, fun-filled photography programmes in May.

Learn – from using mobile phones to what you can do with your first SLR. Stun everyone with your newly acquired skills.

Most people's answers to the question "What is photography?" would probably be the same: photography is an art, science and practice creatively rolled into one.

Photography, in one sense is easy, quick and fun to share its output with everyone. However, learning its basics adds tremendous value to the photographs taken by you even with a smart camera phone. Get that creative freedom to explore something that is ordinarily un-noticed.

Once you learn what your camera can do, that click will give you an immensely enjoyable output if you visualize, compose and use the right lighting. This programme will help you learn all that with practical, fun activities. Take home photographs that you can take pride in showing to your friends, parents and other relatives.

The resource persons will monitor, observe, comment and guide you at every step. The programme is open to all – children above 5 as well as adults

Timings: 7 am to 9 am

Batches:

Batch-1: 16 – 20 April

Batch-2: 23 – 27 April

Batch-3: 30 April – 4 May
