

CEE

Centre for Environment Education

Centre for Environment Education

- ❑ Established in 1984 as Centre of Excellence in Environment Education (EE) of Ministry of Environment, Forest and Climate Change, Government of India
- ❑ Affiliated to the Nehru Foundation for Development (NFD)
- ❑ Around 40 offices in the country with 6 Regional offices, several state and field offices -
 - ❑ coordinate, monitor and follow up EE programmes
 - ❑ support core activities of CEE
 - ❑ develop locale specific programmes and materials

CEE

Centre for Environment Education

A Centre of Excellence Supported by the Ministry of Environment & Forests, Government of India

Glimpses of Programmes and Activities

Rebuilding Trust is an initiative in earthquake affected areas of J&K, to work with and capacity-build communities to become more disaster-resilient and cope better.

Education for a Sustainable Future (ESF) was the first international event of the DESD. More than 900 participants from over 50 countries resolved to move towards a sustainable future in a spirit of urgency, commitment, hope and enthusiasm.

Samvaad - A Dialogue on Rural Sustainable Development brought together more than 1200 community representatives from nearly 200 project villages to discuss their sustainable rural development experiences and plan for the future.

CEE's programmes build in a multiplier effect to achieve maximum reach and impact.

Along with MoEF, CEE is working to strengthen EE in the school systems of 27 states.

Education and communication to support sustainable development and livelihoods in mountain regions is the focus of CEE's Himalaya Initiative.

CEE has developed over 200 publications in over 15 languages, for a variety of readers. Edutech, CEE's associate organisation, helps disseminate the publications.

Formal and non-formal education programmes help tap the energy of youth in environmental efforts.

The Ranthambore project office was CEE's earliest initiative in developing appropriate programmes aimed at enabling sustainable natural resource management by communities living in environmentally fragile areas.

Recognising that EE has to begin early, CEE's National Environment Education Programme in Schools (NEEPS) reaches out to students and teachers of over 3000 schools across the country.

CEE's experience in participatory rural development has been applied in post earthquake rehabilitation programmes in Gujarat.

Involving students and communities in water quality monitoring was the first step in people's participation in local environmental issues.

Species-focused school education is one way to initiate a dialogue with the community for reducing human-animal conflicts in and near forest areas.

Sundarvan, a Nature Discovery Centre, aims to stimulate a process of inquiry about nature through a variety of approaches that include live snake shows.

Byri Dwarika is one of the camp sites set up by CEE as part of its Experiencing Nature Programme.

CEE is the Environmental Information System (EIMS) node of EE in India. Newletters are an important means to address information needs and facilitate experience sharing.

CEE facilitates the implementation of an Environment Management Framework for the State Government's rural poverty reduction projects, focusing on natural resource-based livelihood activities.

India's first interpretive programme was set up at Korba National Park by CEE in collaboration with the US National Parks Service.

Partnerships help to utilise complementary strengths of other organisations, avoid duplication, and promote synergy.

Naroda Industrial Estate in Ahmedabad is the site of eco-industrial networking to synergise production and environmental protection.

CEE develops visitor centres, signage, exhibits, publications, guided trails and other interpretive media for natural and cultural heritage sites.

Involvement of college students in environmental quality monitoring in Karnataka was CEE's first initiative in influencing EE in higher education.

In Gulbarga city, a Common Healthcare Waste Appropriate Management Plant (CHAWMP) has been established for biomedical waste treatment and disposal to all health care establishments.

CEE facilitates the implementation of an Environment Management Framework for the State Government's rural poverty reduction projects, focusing on natural resource-based livelihood activities.

CEE is the Subject Matter Focal Point for Environmental Education and Training for SACEP, the South Asia Cooperative Environment Programme.

Publications, seminars and webinars are part of a concerted initiative to reach key policy makers.

CEE Offices

CEE's head office is in Ahmedabad, Gujarat. In order to effectively reach out to various parts of the country and to facilitate programmes that are culturally sensitive and locally relevant, establishing a presence in different parts of India has been recognised as essential.

- Central Office
- Regional Cell
- State Office
- Field Office
- Nature Discovery Centre / Campsite

CEE Australia, located at Sydney, and CEE Sri Lanka, located at Colombo, are the international offices of CEE.

CEE South Bangalore
